

Resolution Number: 10-0808

## PERMIT FEE WAIVERS FOR DECLARED DISASTERS

**Whereas**, the Office of Planning & Development is charged with administering several county, state and federal regulations that necessitate the issuance of permits for certain development;

**Whereas**, fees for said permits are established by the Iowa County Board of Supervisors with the intent to offset as much as practicable administrative costs;

**Whereas**, at times of natural disaster, repairs and replacement of damaged structures are subject to permits under adopted regulations;

**Whereas**, at its August 7, 2008 meeting, the Economic Development, Extension and Public Property Committee acted to recommend that permit fees associated with repairs and replacement of structures that incur damage during a state or federally declared disaster event be waived by the Office of Planning & Development provided the repairs or replacement is to restore the structure to the pre-event condition and that the fee waiver period is to extend for up to 12 months from the declaration date;

**Now Therefore Be It Resolved** that the Iowa County Board of Supervisors hereby accepts the recommendation of the Economic Development, Extension and Property Committee.

Dated this 19<sup>th</sup> day of August 2008.

Respectfully submitted,

ECONOMIC DEVELOPMENT, EXTENSION AND PROPERTY COMMITTEE
