RE: Mailbox Damage/Acceptable Installation

The Iowa County Highway Department will not replace plastic mailboxes that continue from the mail holding area down and mold around the wooden post, making the wooden post look plastic. These mailboxes break easily in the winter when hit with snow and ice coming off the plow and wing.

Enclosed are some preferred mailbox and post recommendations.

If your mailbox is damaged by an employee of the Iowa County Highway Department, please contact us immediately.

Sincerely,

Craig Hardy, Commissioner
Iowa County Highway Commission

CH/lmb
